TECHNICAL DATA SHEET

ERS-TPO Sealant Pockets

For Professional Use Only

PRODUCT DESCRIPTION:

ERS-TPO Sealant Pockets are prefabricated pockets of non-reinforced TPO material. 2" x 10" Pocket Extensions are available to enlarge the size of the pockets.

USES:

ERS-TPO Sealant Pockets are ideal for sealing irregular, hard to flash penetrations through the membrane.

PHYSICAL PROPERTIES:

Color:	White, Gray and Tan
Sizes Available:	6" – 8" diameter (15, 20 cm)
Packaging:	5 pockets per carton
Weight:	2 lbs/carton (.91 kg/carton)

PACKAGING & STORAGE:

ERS-TPO Sealant Pockets must be kept clean and dry prior to installation.

INSTALLATION:

Refer to Ecology Roof Systems Details published in the TPO Specification Manual.

PRECAUTIONS:

Temperature of penetration shall not exceed 180°F (82°C). The inside of the sealant pocket and all penetrations must be cleaned with ERS-Weathered Membrane Cleaner then coated with ERS-EPDM/TPO Tape Primer prior to filling with sealant. ERS-TPO Pourable Sealer must completely fill sealant pocket. The walls of the sealant pocket must be a minimum of one-inch from any penetration. ERS-TPO Sealant Pockets or TPO membrane that has been exposed to the weather for approximately 7 days or longer prior to use must be prepared with ERS-Weathered Membrane Cleaner prior to hot air welding. Make sure all voids or openings between the penetrations and the membrane inside the pocket are sealed (use caulk or tape for sealing) before filling the pocket. Openings will permit the sealant to penetrate into the deck and possibly into the building.
